

Updated Content Requirements for Survey Plans and Sketches

As of August 30, 2018, an updated content requirements for sketch and survey plans for Alberta Environment and Parks (AEP) and the Alberta Energy Regulator (AER) for new public lands disposition applications and applications for amendments to existing public lands dispositions will be implemented.

Consideration will be given to plans drafted and/or signed prior to the issue date of these new content requirements.

Why did this change occur?

This document is reviewed on an ongoing basis and is updated when new criteria or changes are identified.

What are the benefits of this change?

The changes and clarifications in this document will help ensure that applicants applying for public lands dispositions or amending existing public lands dispositions will be submitting survey or sketch plans which are acceptable to AEP and the AER and which, in turn, will help to expedite the application/amendment process.

Where can I find information about this change?

On AEP's website you can find the required information for survey and sketch plan preparation including legislative requirements, digital plan submission formats and specifications, and other pertinent information to inform the drafting of survey and sketch plans.

The document "Content Requirements for Survey Plans and Sketches for Dispositions (excludes Agricultural Activities)" contains the latest acceptable plan standards for survey and sketch plans. This latest version will include changes (additions/deletions) and clarification of various sections of the document to help in the preparation of suitable plans for submission to AEP and the AER.
